Regression Modeling Project

Rabindra Swamidasan

Thursday, June 4, 2015

These files were placed in my Git Hub repo solely to allow my peer assessors to verify that the report was authored in R Markdown and compiled to pdf using pdflatex (via knitr), as part of the Regression Models course.

In accordance the Coursera Honor Code, I should not make such documents publicly available. Iam therefore obliged to remove them, now that the assessment period is over.

Thank you!
